

Tablet Devices in EYFS

Native apps

Exploring how the camera app works is useful in the EYFS environment. Capturing simple videos and photos and being able to store and retrieve them is a key digital skill that is built upon in KS1. In school uses include creating a photo booth style experience using the timing function on the camera app.

CBeebies apps

Free to download and free from any advertisements or in-app purchases. These apps also feature a parental lock, leaving children free to explore, play and enjoy a fun learning experience with their favourite CBeebies characters.

CBeebies Storytime aims to make reading fun, with playful and imaginative stories designed to help support early years reading. Every story is brought to life with magical things to touch, swipe and play with. There are also questions to help develop comprehension skills, so you and your little ones can enjoy reading, playing and learning together. The app has a library feature where you and your little ones will be able to choose and download more stories for free and when they are finished with these they can simply choose others. The app has over 40 stories in the library!

CBeebies Playtime Island is an app for families to enjoy, where kids can learn as they play. Whether you want to help Gem win her jewels back in My Swashbuckle Adventure, solve fun engineering problems with Bitz & Bob in Let's Get Bitzy or explore the planet with Go Jetters. The app is jam-packed with great free games for kids, and a new game is added each month.

Children can make the island their own by choosing their favourite games and CBeebies characters to play with. This personalisation means that the app can grow with your child as they develop, and their interests change. You can start out with an island full of Bing, Teletubbies and Twirlywoos before graduating to Go Jetters, The Furchester Hotel and Topsy and Tim.

All the games in CBeebies Playtime Island meet specific needs of children and their parents or carers, with a focus on bonding, learning, discovery and self-expression.

CBeebies knows how important creativity is for children, and our Get Creative app gives them the freedom to explore this with no limitations. Creativity is vital in children's social and emotional development, and this app is cleverly designed with

that in mind. Little ones can express themselves, experiment and create lots of exciting things with some of our most-loved brands, Hey Duggee, Go Jetties and Bitz & Bob.

In our creative factory little ones can explore one of four amazing make machines. From composing a musical masterpiece to building and bringing to life their dream toy, there are so many opportunities for them to let their imaginations soar.

Aimed at 3-5-year olds, Get Creative allows them to play independently, building their confidence as they explore open-ended activities, take on regular challenges and even create a gallery of all their amazing artwork.

Duck Duck Moose Apps

Duck Duck Moose apps encourage kids to explore and learn in a safe and fun environment. We work with educators and do lots of play-testing with kids to ensure our apps are frustration free for little fingers and full of whimsy and wonder for all to enjoy.

Phonics Apps / Sites

Phonics Bloom

Phonics Bloom create interactive online phonics games to help teach children the relationship between letters and sounds and develop the skills needed to read and write. All our resources are designed by an experienced team of teachers and parents.

Read with Phonics

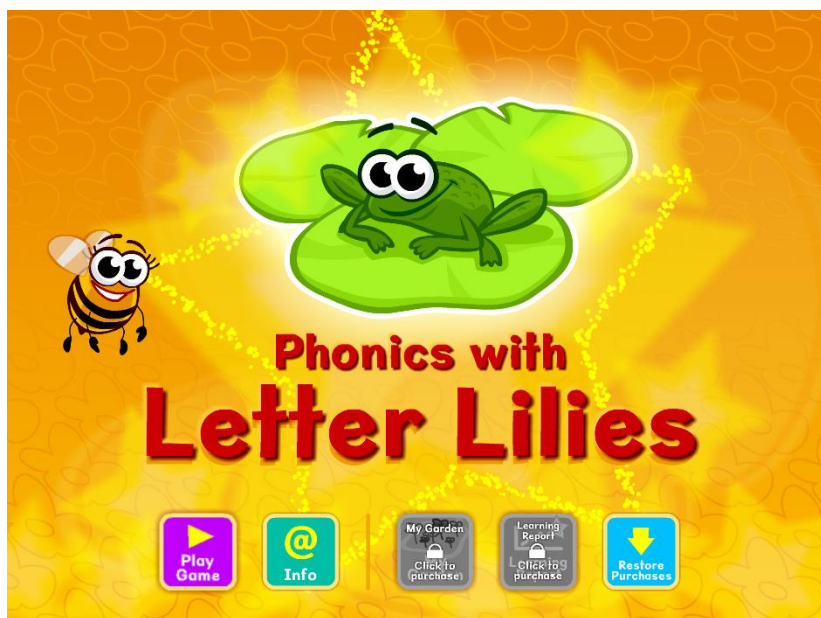

Play phonics games that make learning to read fun! Choose from 7 free online phonics games and practice a range of phonics skills from segmenting and blending, grapheme recognition, word comprehension, and much more! Our online phonics games are designed specifically for Key Stage 1 (Year 1 and Year 2) and Kindergarten students. Our phonics games closely follow the Letters and Sounds Phonics Program, ideal for those learning to read with Phonics in the UK, US, AUS and NZ. Also brilliant for toddlers who want to play phonics games!

Letter Lilies

The team behind Letter Lilies have created an app that is very intuitive to use. Some knowledge of phonics and letters is desirable however; if you work with your child you shall be able to learn on the go.

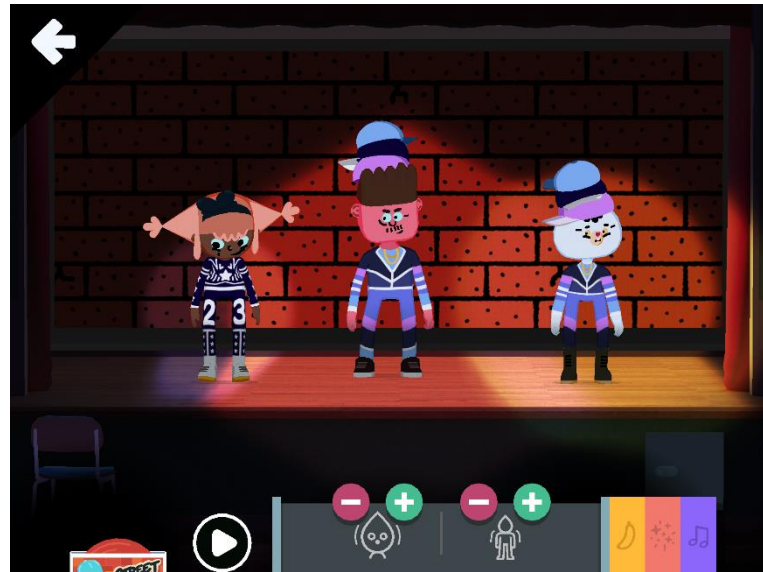

There are three levels to work from "Easy, Medium and Hard

Exploration

TocaBoca

Toca Boca captures the power of play. We create digital toys and everyday products that are filled with fun and silliness that kids from any corner of the world can instantly relate to. Everything is designed from their perspective. We celebrate the diversity and quirkiness of their world and give them the freedom to play in ways that only they can dream up.

Cowly Owl

Cowly Owl creates games for the whole family to play together. These games encourage creative exploration and social interaction, designed with all ages in mind.

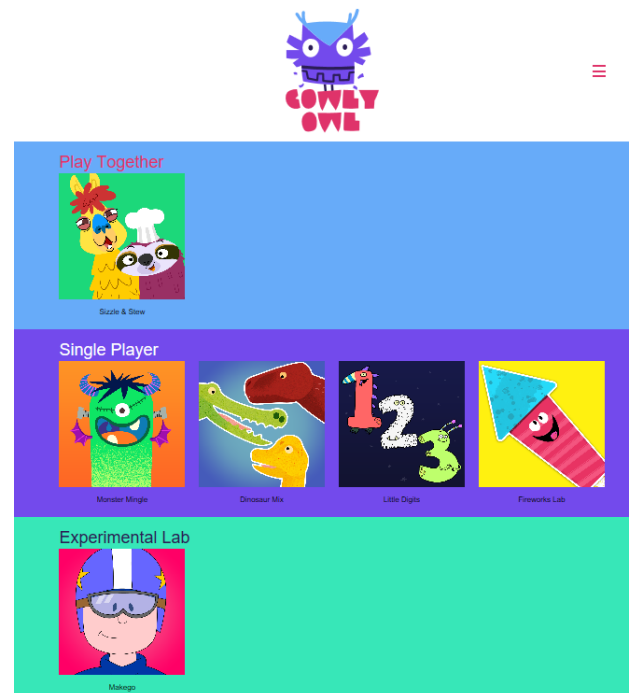

Here at Cowly Owl we're on a mission to bring families together through the joy of games. Playing games collaboratively develops problem solving skills, encourages bonding and creates memories of time shared with loved ones. We've dedicated ourselves to encouraging social interaction. We've really thought about how we can encourage families to play face to face, in real person, gathered around a shared screen. Why? Because the family that plays together, stays together.

Mister maker

Mister Maker: Let's Make It!

IT'S TIME TO GET CREATIVE!

Inspired by the hit CBeebies TV show Mister Maker's Arty Party!, this official app is guaranteed to give hours of creative fun.

IT'S TIME TO GET CREATIVE!

Inspired by the hit CBeebies TV show Mister Maker's Arty Party!, this official app is guaranteed to give hours of creative fun.

GLITTER AND GLUE, BUT WITHOUT THE MESS

Designed especially for your own budding Mini-Makers, this app allows kids to imagine and create an unlimited number of pictures and designs using the extensive range of over 350 colours, backgrounds, materials and special effects available from the Doodle Drawers. There's even virtual glue and lots of glitter to use.

TAKE PHOTOS AND MAKE 'EM WHACKY

Take a photo or use images from your device's photo album, then turn them into a whacky creation to share with your friends. What would grandma look like wearing a snorkel and why has grandad got red hair?

MAKE IT IN A MINUTE

Then take part in 20 different Minute Make challenges. Check out the new SEA LIFE Adventure Minute Makes in association with SEA LIFE Centre and learn some important conservation stories.

PLAY WITH THE SHAPES

Learn to identify shapes and watch them morph into fun objects in the original Shapes Game, or play the addictive Shapes Match-3 game.

SAFE MISTER MAKER ENVIRONMENT

Mister Maker himself is on-hand to give continuous positive advice and encouragement to your Mini-Makers using video and audio guidance. Also includes The Shapes, Tocky, The Doodle Drawers, Minute Makes, Frame It! together with all the familiar music and sound effects from the TV show.

Mister Maker: Let's Make It! is so much more than another colouring game, it offers endless creative possibilities and hours of fun.
